GLOBAL DIVERSIFIED INVESTMENT GRADE INCOME TRUST II

MANAGEMENT REPORT OF FUND PERFORMANCE

December 31, 2006

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements by visiting the website of National Bank Financial Inc. at www.nbfinancial.com or SEDAR at www.sedar.com or, at your request, and at no cost, by calling toll-free 1-877-879-6424, or by writing to us at 800 Victoria Square, Suite 3400, Montréal, Québec H4Z 1E9.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's portfolio disclosure.

Management Report of Fund Performance

This annual management report of fund performance contains financial highlights but does not contain the complete audited annual financial statements of the investment fund.

Global DIGIT II Management Inc. is the trustee for the issuer, Global Diversified Investment Grade Income Trust II (“**Global DIGIT II**”). Metcalfe & Mansfield Alternative Investments II Corp. is the trustee for Silverstone Trust (“**Silverstone**”), a trust consolidated with Global DIGIT II. Global DIGIT II and Silverstone are collectively referred to as the “**Trust**” in this report and in the annual financial statements. Global DIGIT II Management Inc. and Metcalfe & Mansfield Alternative Investments II Corp are two affiliates and are collectively referred to as the Trustee in this report.

1. Investment Objectives and Strategy

Global DIGIT II’s principal objectives are:

- (i) to provide holders of units (the “**Unitholders**”) with a fixed rate stream of monthly distributions equal to \$0.0687 per Unit (\$0.8244 per annum) (8.244% per annum compounded monthly or an effective annual rate of 8.56%) up to on or about March 9, 2010 and, thereafter, a fixed rate stream of monthly distributions reset every five calendar years (the date of every such reset, including March 9, 2010, being a “**Reset Date**”) intended to equal the five-year Government of Canada bond rate plus 4% to 4.5%. The distributions will consist of capital reimbursements which will reduce the adjusted cost base thereof until such cost base is equal to zero and, thereafter, of income payments; and
- (ii) to repay to Unitholders on a Reset Date falling on or after March 9, 2010 on which the credit default swaps (as described below) are terminated by Winchester Capital, a unit of Deutsche Bank AG (“**Deutsche Bank**”) (such date being the “**Maturity Date**”) an amount equal to the original subscription price of \$10.00 per unit.

To meet its objectives, Global DIGIT II entered into three credit default swap agreements (the “**Financial Contracts**”) with Silverstone Trust, which itself entered into four credit default swaps with Deutsche Bank. These credit default swaps provide Unitholders with an exposure to four global diversified portfolios (individually, the “**Credit Exposure A, B, C or D**”, and collectively, the “**Credit Exposures**”) of mortgage-backed securities, asset-backed securities, structured finance securities, synthetic corporate exposures and other fixed-income securities. The Trust’s obligations under the credit default swaps are collateralized by term deposit investments made by the Trust. The term deposit investments have been funded by the proceeds from the initial public offering of the Trust as well as by the issuance of commercial paper and floating rate notes.

To the extent that any losses, net of any recoveries, are incurred as a result of credit events in the portfolios, the notional amount of the Credit Exposures, and therefore the amount that will be repaid to Unitholders by the Trust on the Maturity Date, will decline, as will monthly distributions on the units. These amounts will decline to zero if the cumulative losses equal or exceed, the initial notional amount of Credit Exposures A, B and C.

2. Risks

The Unitholders will assume the first loss credit risk on the reference obligations up to the notional amount of the Credit Exposures A, B and C. Any loss resulting from a credit event will lead to a settlement that will decrease the notional amount of the affected Credit Exposure. A decrease in the notional amount will decrease the monthly distributions of the Trust and the redemption price of the units at the Maturity Date. The occurrence of numerous credit events could reduce the notional amount to zero resulting in quarterly distributions and payment on the Maturity Date reduced to zero.

A credit event is, for a given credit exposure, the occurrence of one of the following events in respect of a reference obligation in the portfolio: bankruptcy, failure to pay and any other loss event in respect of such reference obligation.

Risks and uncertainties associated with investing in Global DIGIT II units remains as described in Schedule A.

3. Results of Operations

The assets of Global DIGIT II are primarily an investment in term deposits and credit default swap agreements A, B, C and D providing with an exposure to the Credit Exposures containing, as at December 31, 2006, respectively 205, 137, 233 and 576 securities (collectively, the “**reference obligations**”). Credit Exposure D contains a senior exposure to the reference obligations contained in Credit Exposures A, B and C, plus an exposure to a synthetic corporate obligation representing 25% of the total portfolio of reference obligations of Credit Exposure D. The aggregate notional amount of the Credit Exposures is \$20,130,725,000, consisting of an aggregate amount of \$130,725,000 for the portfolios A, B and C and \$20 billion for the portfolio D. The aggregate amount of term deposit investments and interest-bearing receivable assets under the credit default swaps is \$2,130,725,000.

A comprehensive description of the assets and liabilities of the Trust may be found in the prospectus which can be found on SEDAR at www.sedar.com. The following description is intended to provide a plain language summary of its assets and liabilities.

Term Deposit Investments

The term deposit investments of Global DIGIT II, which consist of a Bayerische Landersbank Floating Rate Note and a National Bank of Canada Term Deposit Note have been pledged as collateral under the Financial Contracts. On the first Reset Date, in the event that Deutsche Bank has elected to terminate the Financial Contracts, these investments and a payment under the Financial Contracts will be used to repay Global DIGIT II's indebtedness and redeem the units. If Deutsche Bank has not elected to terminate the Financial Contracts, the proceeds from these investments will be reinvested and pledged as collateral under the Financial Contracts. Deutsche Bank may elect not to terminate the Financial Contract until the 40th anniversary of the Trust (March 9, 2045).

Management of the Portfolio

Deutsche Bank, acting through Winchester Capital, its principal finance unit which specializes in structured finance and assets, makes all decisions concerning the composition of the portfolio of reference obligations and the addition and removal of reference obligations to or from the portfolio, subject to certain investment restrictions. Any changes to the composition of the portfolio made by Winchester Capital may be made solely in furtherance of Deutsche Bank's trading strategy and may have a positive or negative impact on the credit

performance of the portfolio of reference obligations and the Financial Contracts. Any such changes in the composition of the portfolio or other actions undertaken by Deutsche Bank does not require the approval of or consultation with the Trustee or the Unitholders. Moreover, irrespective of the amount of losses sustained in respect of the Credit Exposures, at no time will Deutsche Bank or Winchester Capital have any obligation to act in, or take into account of, the interests of the Trust or the Unitholders.

However, Winchester Capital (but not Deutsche Bank on a consolidated basis) will be required to maintain a 25% unhedged exposure to the portfolio of reference obligations. Consequently, the Winchester Capital unit of Deutsche Bank is exposed, along with Unitholders, to losses arising from credit events occurring with respect to reference obligations in the portfolio during the term of the Financial Contracts.

The Trustee has no obligation, and no ability without the consent of Winchester Capital, to replace, modify, sell or terminate the Credit Exposures. Subject to the consent of Winchester Capital, the Trustee may request an amendment to certain of the Credit Exposures when, in its judgement, such amendment is advisable. Such amendment may result in a reduction in the monthly distribution and in the value of the Financial Contract at the Maturity Date. Any amendment to the Credit Exposures is not subject to the approval of the Unitholders and are at the sole discretion of the Trustee.

Credit Quality of the Portfolios and the Financial Contracts

Credit Exposure A

As of December 31, 2006, Credit Exposure A comprised 205 reference obligations, including mortgage-backed securities, asset-backed securities, structured finance securities, synthetic corporate exposures and other fixed-income securities (at December 31, 2005 – 208 reference obligations).

The S&P ratings of the mortgage-backed securities, asset-backed securities, structured finance securities, synthetic corporate exposures and other fixed-income securities comprised in Credit Exposure A were distributed as follows at inception (by notched S&P rating category), December 31, 2005 and December 31, 2006 (by equivalent S&P rating):

Rating	Inception	December 31, 2005	December 31, 2006
AAA	75.8%	77.1%	76.6%
AA	13.5%	10.4%	10.1%
A	10.7%	12.1%	13.1%
BBB	0.0%	0.4%	0.0%
BB	0.0%	0.0%	0.2%

The weighted average assigned Moody's rating factor of the mortgage-backed securities, asset-backed securities, other fixed-income securities and synthetic corporate exposures comprised in Credit Exposure A was 18 at inception (between Aa1 and Aa2), 19 both as of December 31, 2005 and December 31, 2006 (between Aa1 and Aa2). The weighted average assigned Moody's rating factor is calculated by (i) adding the product of the notional amount of each reference obligation and its assigned Moody's rating factor and (ii) dividing such amount determined under (i) by the notional amount and converting the result to its equivalent Moody's rating factor determined as follows: a Moody's rating of Aaa, Aa1, Aa2, Aa3, A1, A2 or A3 is assigned a rating factor of respectively 1, 10, 20, 40, 70, 120 or 180. The reference obligations comprised in Credit Exposure A had initially a weighted average default probability equivalent to a rating of AA by S&P and between AA+, AA as of December 31, 2005 and as of December 31, 2006.

Portfolio A's composition by asset classes at inception, December 31, 2005 and December 31, 2006 was as follows:

Asset Class	Inception	December 31, 2005	December 31, 2006⁽¹⁾
Commercial asset-backed securities	3.4%	4.4%	5.9%
Consumer asset-backed securities	8.1%	5.6%	3.4%
Residential mortgage-backed securities	31.7%	34.6%	31.7%
Commercial mortgage-backed securities	15.4%	9.6%	10.2%
Synthetic corporate exposures and other structured finance and fixed-income securities	41.3%	45.8%	48.8%

(1) Based on S&P Industry Classification.

Credit Exposure B

As of December 31, 2006, Credit Exposure B comprised 137 reference obligations, including mortgage-backed securities, asset-backed securities, structured finance securities, synthetic corporate exposures and other fixed-income securities (December 31, 2005 – 149 reference obligations).

The S&P ratings of the mortgage-backed securities, asset-backed securities, structured finance securities, synthetic corporate exposures and other fixed-income securities comprised in Credit Exposure B were distributed as follows at inception (by notched S&P rating category), December 31, 2005 and December 31, 2006 (by equivalent S&P rating):

Rating	Inception	December 31, 2005	December 31, 2006
AAA	72.9%	79.4%	83.7%
AA	16.2%	8.6%	3.2%
A	10.9%	11.9%	13.1%

The weighted average assigned Moody's rating factor of the mortgage-backed securities, asset-backed securities, other fixed-income securities and synthetic corporate exposures comprised in Credit Exposure B was 21 initially (between Aa2 and Aa3 equivalent), 19 both as of December 31, 2005 and December 31, 2006 (between Aa1 and Aa2). The reference obligations comprised in Credit Exposure B had a weighted average default probability equivalent to a rating of AA by S&P at inception and between AA+, AA as of December 31, 2005 and between AA+, AA as of December 31, 2006.

Credit Exposure B's composition by asset classes at inception, December 31, 2005 and December 31, 2006 was as follows:

Asset Class	Inception	December 31, 2005	December 31, 2006⁽¹⁾
Commercial asset-backed securities	5.1%	9.1%	10.8%
Consumer asset-backed securities	0.5%	0.5%	2.6%
Residential mortgage-backed securities	38.8%	31.5%	22.2%
Commercial mortgage-backed securities	10.2%	8.3%	10.6%
Synthetic corporate exposures and other structured finance and fixed-income securities	45.4%	50.7%	53.8%

(1) Based on S&P Industry Classification.

Credit Exposure C

As of December 31, 2006, Credit Exposure C comprised 233 reference obligations, including mortgage-backed securities, asset-backed securities, structured finance securities, synthetic corporate exposures and other fixed-income securities (at December 31, 2005 – 195 reference obligations).

The S&P ratings of the mortgage-backed securities, asset-backed securities, structured finance securities, synthetic corporate exposures and other fixed-income securities comprised in Portfolio C were distributed as follows at inception (by notched S&P rating category), December 31, 2005 and December 31, 2006 (by equivalent S&P rating):

Rating	Inception	December 31, 2005	December 31, 2006
AAA	66.1%	50.2%	83.7%
AA	9.7%	12.6%	3.2%
A	24.2%	35.0%	13.1%
BBB	0.0%	2.3%	0.0%

The weighted average assigned Moody's rating factor of the mortgage-backed securities, asset-backed securities, other fixed-income securities and synthetic corporate exposures comprised in Credit Exposure C was 39 initially (between Aa2 and Aa3 equivalent), 63 as of December 31, 2005 (between Aa3 and A1) and 57 as of December 31, 2006 (between Aa3 and A1). The reference obligations comprised in Credit Exposure C had a weighted average default probability equivalent to a rating of AA- by S&P at inception, between AA- and A+ as of December 31, 2005 and between AA and AA- as of December 31, 2006.

Credit Exposure C's composition by asset classes at inception, December 31, 2005 and December 31, 2006 was as follows:

Asset Class	Inception	December 31, 2005	December 31, 2006⁽¹⁾
Commercial asset-backed securities	0.9%	10.8%	7.8%
Consumer asset-backed securities	0.5%	0.5%	0.0%
Residential mortgage-backed securities	41.4%	32.3%	24.5%
Commercial mortgage-backed securities	7.9%	7.6%	14.4%
Synthetic corporate exposures and other structured finance and fixed-income securities	49.3%	48.8%	53.3%

(1) Based on S&P Industry Classification.

The credit protection provided under the Credit Exposures is a relatively small amount in relation to the size of the portfolio in respect of which credit protection has been provided. Relatively small percentage losses on the portfolio will result in proportionally larger tranche percentages being deducted from the initial notional amount in satisfaction of credit protection obligations under the Credit Exposures. Moreover, a partial or total loss may be incurred on Credit Exposures A, B and C without a total loss, or any loss, being incurred by an investor holding a more senior tranche of the Credit Exposures to the portfolio, including providers of the senior debt used to collateralize Credit exposure D. Hence, Unitholders may suffer a partial or total loss on the units without the financial institutions providing senior debt to the Trust incurring any losses in respect of Credit Exposure D and Unitholders will suffer a total loss before such senior debt providers suffer any loss (except a loss stemming from the AAA-rated synthetic corporate exposures contained in Credit Exposure D but not in Credit Exposures A, B and C).

Net Asset Value

The net asset value (“NAV”) of the Trust was \$121,882,467 as at December 31, 2006 (\$8.73 per unit based on 13,959,575 units outstanding), as compared to \$142,069,178 as at December 31, 2005 (\$9.50 per unit based on 14,950,000 units outstanding). The NAV reflects a complete write-off of the \$9,786,499 (\$0.65 per unit) issue expense incurred with the initial public offering of Global DIGIT II. The NAV also reflects differences between the accounting value of the swaps and their par value.

Determination of the Net Asset Value of the Units

The NAV is calculated by National Bank of Canada, as administrative agent (the “**Administrative Agent**”) as of the last business day of each month and approved by the Trustee before its publication.

The NAV on a particular date is equal to the aggregate value of the assets of the Trust, less the aggregate value of its liabilities (including any operating expenses payable) and the underlying income taxes (if any) on income earned. The “NAV per unit” on any day is obtained by dividing the NAV of the Trust on that day by the number of units outstanding on the same day. The NAV is posted on the Web site of National Bank Financial Inc. at www.nbfinc.com and on SEDAR at www.sedar.com and is published monthly by Global DIGIT II.

In calculating the NAV, the Administrative Agent uses the following rules:

- (i) the value of the Financial Contracts is established by reference to the credit performance of the Credit Exposures and the reference obligations, general market conditions and all other relevant criteria including a bid and ask indication provided monthly by Winchester Capital for the Financial Contracts. The bid and ask indication provided by Winchester Capital reflects the price that it would be ready to purchase or sell a \$1 million tranche of the Financial Contracts. This information may reflect factors such as the market’s assessment of overall credit quality of the reference portfolio as measured by the trading price of the debt (and derivatives thereof) of reference obligations, interest rates as well as factors that are proprietary to Winchester Capital, such as correlation between individual reference obligations (and other securities in the portfolio of the Bank or Winchester Capital).
- (ii) in accordance with Generally Accepted Accounting Principles (“GAAP”), money market instruments and bank deposits are valued at cost plus accrued interest at the time of calculation;
- (iii) the value of any permitted investments is established by reference to prevailing interest rates, general market conditions and all other relevant criteria;
- (iv) the value of any other bonds, debentures and other debt obligations is established by reference to prevailing interest rates, general market conditions and all other relevant criteria; and
- (v) the value of any cash on hand or on deposit, prepaid expenses and interest accrued and not yet received, is deemed to be the face amount thereof unless it is determined that any such asset is not worth the face amount thereof, in which event the value is determined by Administrative Agent.

If any of these rules cannot be used or are at any time considered inappropriate under the circumstances, then such valuation is established with such other rules in conformity with GAAP in a fair and reasonable manner. As of December 31, 2006, no asset had been valued otherwise than in accordance with the above rules.

The process of valuing investments for which no published market exists is based on inherent uncertainties and the resulting values may differ from values that would have been used had a ready market existed for the investments and may differ from the prices at which the investments may be sold.

Income and Distributions

During the year ended December 31, 2006, the Trust had a net income of \$371,472 (\$0.03 per unit) (a net income of respectively \$12,275,002 and \$0.82 per unit for 2005 (representing about 10 1/3 months of operations)) and has declared a distribution of \$11,644,358 (\$0.83 per unit) (respectively \$9,919,325 and \$0.66 per unit in 2005) to its Unitholders. The difference between the 2006 net income and the amount of the distributions is the result of a non-materialized depreciation of \$12,418,875 in the Financial Contracts (\$0.88 per unit).

The distributions made by the Trust were entirely made of return of capital and have resulted in a reduction in the amount of the term deposits held by the Trust. The amount of term deposits held by the Trust decreased by \$8,481,800 as a result of the sale of \$9,275,000 of investments for the redemption of 990,425 units made by the Trust in March 2006 and by \$11,712,400 as a result of liquidations in the term deposits to finance the distributions. Hence, the reduction of \$11,712,400 in the term deposits was compensated by the accrual of an interest-bearing credit default swap receivable of \$11,712,400 reported as part of the \$22,215,069 shown on the balance sheet as at December 31, 2006.

Borrowings and Interest Rate Hedging

As at December 31, 2006, the Trust had \$1,999,392,870 (as compared to \$2,002,110,409 as at December 31, 2005) in outstanding commercial paper and floating rate notes. The mix of commercial paper and floating rate notes may vary over a given period, but the aggregate amount has not, and is not expected to vary materially.

The commercial paper is rated R-1 (high) and the floating rate notes are rated AAA by DBRS.

The Trust has a short term liquidity arrangement whereby Deutsche Bank has agreed that, in market disruption circumstances, it will purchase senior debt or collateral from the Trust if the Trust is unable to sell such debt to third parties. The issue price of such debt or collateral will be used to fund repayment of the Trust's then maturing debt.

From time to time, the Trust enters into interest swap arrangements to hedge interest payable under the floating rate notes and the commercial paper to maturities matching the interest that the Trust earns pursuant to the credit default swaps. For accounting purposes, these arrangements are not documented to qualify for hedging accounting.

In connection with the Financial Services Agreement (see « Transactions with the Promoter and its Affiliates »), at closing of the initial public offering of the Trust, a placement and structuring fee (the « **PSF Fee** ») was earned by, and is payable to the Financial Services Agent. A portion of this PSF Fee was securitized on March 18, 2005 through the issue of a \$15,712,210 note and the proceeds were paid to the Financial Services Agent. This note is shown as the Placement and Structuring Fee Note (the « **PSF Note** ») on the Trust's consolidated balance sheet with an unpaid balance of \$13,466,627 as at December 31, 2006. Proceeds from the PSF Note are shown as prepaid expenses on the Trust's consolidated balance sheet with an unamortized balance of \$12,889,363 as at December 31, 2006. As the amortization methods of the PSF Note and the prepaid expenses are not the same, the accreted value of the Trust, as defined below, reflects the difference in amortization.

4. Recent Developments

Portfolio Changes

During the year ended December 31, 2006, the Trustee has not requested any change in the portfolio of securities included in the credit exposures and there were no credit event related to the reference obligations.

Further to an agreement between National Bank Financial Inc. (“**NBF**”) and Deutsche Bank, starting January 1, 2009, Deutsche Bank will not exercise its ramp-up and replenishment option under the financial contracts relating to the underlying credit default swaps. Therefore, the principal amount of the assets in the portfolios will start to decline after January 1, 2009 as maturing portfolio assets will not be replaced, decreasing the likelihood that the transaction will reach the maximum 2045 maturity date if Deutsche Bank AG exercises, each five year, its right to postpone the maturity date.

Redemptions

On March 14, 2006, Global DIGIT II purchased for cancellation the 990,425 units (representing approximately 6.6% of the outstanding units) that had been tendered for redemption pursuant to the annual redemption privilege.

Subsequent Events

On March 14, 2007, Global DIGIT II purchased for cancellation the 1,476,120 units (representing approximately 10.6% of the outstanding units) that had been tendered for redemption pursuant to the annual redemption privilege.

5. Transactions with the Promoter and its Affiliates

Administrative Agent Agreements

Pursuant to the Administrative Agent Agreement, the Trustee has delegated its administrative duties relating to Global DIGIT II to Natcan Trust Company (“**Natcan Trust**”). Under this agreement, Natcan Trust is responsible for providing administrative services to Global DIGIT II including, without limitation:

- (i) making the payment of operating expenses incurred on behalf of Global DIGIT II;
- (ii) preparing financial statements, financial and accounting information as required by Global DIGIT II;
- (iii) making distributions to Unitholders and or other relevant parties or entities;
- (iv) ensuring that Unitholders and other relevant parties or entities are provided with financial statements (including annual and semi-annual financial statements) and other reports as are from time to time required by applicable laws;
- (v) ensuring that Global DIGIT II complies with regulatory requirements and applicable stock exchange listing requirements;
- (vi) preparing Global DIGIT II’s reports to Unitholders and to the Canadian securities regulatory authorities; and

- (vii) providing the Trustee with information and reports necessary for it to fulfil its fiduciary responsibilities and negotiating contractual agreements with third party providers of services.

In 2006, the administrative agent, Natcan Trust, transferred its appointment as administrative agent to National Bank of Canada (“NBC”) effective as at October 16th, 2006. In 2006, fees and reimbursement of expenses incurred in relation with this function totalled \$52,285 (2005 - \$48,534).

Pursuant to an administrative agent agreement, Metcalfe & Mansfield Alternative Investments II Corp., as trustee for Silverstone, has delegated its administration duties relating to Silverstone, the entity consolidated with Global DIGIT II, to National Bank Financial Inc. (“NBF”), an affiliate of Natcan Trust. Under this agreement, NBF is responsible for providing administrative services to Silverstone including, without limitation:

- (i) authorizing the payment of operating expenses incurred on behalf of Silverstone;
- (ii) maintaining proper books of account and complete record of transactions as required by Silverstone;
- (iii) making distributions and payments to any relevant parties or entities;
- (iv) ensuring that relevant parties or entities are provided with financial statements and other reports as are from time to time required by applicable laws; and
- (v) providing the Trustee with information and reports necessary for it to fulfil its fiduciary responsibilities and negotiating contractual agreements with third party providers of services.

No fees were paid to NBF for the year 2006 pursuant to this agreement (no fees for year 2005).

Financial Services Agreement

Pursuant to a Financial Services Agreement, Metcalfe & Mansfield Investments II Corp., as trustee for Silverstone, has delegated financial services responsibilities relative to Silverstone to NBF. Under this agreement, NBF assumes on behalf of Silverstone the activities relating to the origination or acquisition of asset interests, negotiation, settlement and completion of related transaction including credit default transactions, issuance, sale and payments of notes and the performance by Silverstone of all obligations under the Trust Indenture, any liquidity agreements and agency agreements.

For the year 2006, NBF is entitled to a fee of \$6,571,220 for these services (\$4,689,977 for the year 2005).

Agency Agreements

Pursuant to an agency agreement, Metcalfe & Mansfield Alternative Investments II Corp., as trustee for the Trust, has retained the services of NBF as one of several of its agents to arrange for the offering and distribution of senior debt. For the year 2006, NBF is entitled to an agency fee of \$500,193 (\$665,437 for the year 2005).

Recirculation Agreement

Pursuant to a Recirculation Agreement, the Trust retained the services of NBF to use commercially reasonable efforts to find purchasers for any units tendered for redemption. Global DIGIT II may, but is not obligated to, require NBF to seek such purchasers.

There are no fees payable in connection with the Recirculation Agreement.

Custodial Agreement

Pursuant to a custodial agreement between the Trust and Natcan Trust, Natcan Trust acts as custodian of the Trust in respect of the assets of the Trust, except for the permitted investments which are held by Deutsche Bank as collateral to the Financial Contract.

For the year 2006, Natcan Trust earned fees of \$120,977 in connection with this agreement (\$98,384 in 2005).

Registrar and Transfer Agent Agreement

Pursuant to a registrar and transfer agent agreement between the Trust and Natcan Trust, Natcan Trust, at its principal offices in Montreal and Toronto, was originally appointed registrar and transfer agent for the units. (On April 28, 2006, another entity, Computershare Trust Company of Canada, was appointed registrar and transfer agent for the Units.)

In 2006, as registrar and transfer agent, Natcan Trust earned fees of \$4,013 and Computershare Trust Company of Canada, \$3,975, for a total of \$7,998 (\$8,025 – 2005).

6. Reports by the Independent Review Committee

The Trustee is not entitled to receive any fee of any nature from the Trust. Since the Trustee is not entitled to receive any remuneration for its services, the interests of the Trustee and its independent directors are considered perfectly aligned on those of the Unitholders. The Board of Directors of the Trustee has appointed its three independent directors as members of its Governance Committee. The Governance Committee performs the role of the Independent Review Committee required under the proposed rule NI-81-107. The Governance Committee of the Board of Directors of the Trustee made no report during the interim period ended December 31, 2006.

7. Financial Highlights

The following tables show selected key financial information about the Trust and are intended to help explain the Trust's financial performance since inception. This information is derived from the Trust's audited annual financial statements:

	December 31, 2006	December 31, 2005 (10 1/3 months)	March 11, 2005 (at inception)
Weighted average number of outstanding units	14,124,646	14,950,000	14,950,000
Net Asset Value, beginning of period	\$9.50	\$9.35	\$10.00
Increase (decrease) from operations			
Total revenues	\$8.51	\$5.29	-
Total expenses.....	(\$7.61)	(\$4.48)	-
Realized gains (losses) for the period	-	-	-
Unrealized gains (losses) for the period	(\$0.88)	-	-
Total increase (decrease) from operations	\$0.03	\$0.81	-
Issue expenses ⁽¹⁾	-	-	(\$0.65)
Distributions:			
From income (excluding dividends)	-	-	-
From dividends	-	-	-
From capital gains.....	-	-	-
Return of capital.....	(\$0.82)	(\$0.66)	-
Total Annual Distributions⁽²⁾	(\$0.82)	(\$0.66)	-
Net Asset Value, end of period	\$8.73	\$9.50	\$9.35

(1) Issue expense of \$9,786,499 incurred in connection with the initial public offering, principally consisting of agents' fees and other offering expenses, which has been charged to retained earnings prior to calculating the opening net asset value of \$9.35.

(2) Net Asset Value is based on the actual number of units outstanding at the relevant time. The increase / decrease from operations and distributions are based on the weighted average number of units outstanding over the financial period.

Ratio and Supplemental Data

	December 31, 2006	December 31, 2005	March 11, 2005 (at inception)
Net Asset.....	\$121,882,467	\$142,069,178	\$139,713,501
Number of units outstanding.....	13,959,575	14,950,000	14,950,000
Net Asset Value per Unit	\$8.73	\$9.50	\$9.35
Portfolio turnover rate.....	-	-	-
Trading expenses ratio	-	-	-
Closing market price (TSX).....	\$8.47	\$9.06	\$10.00

Accreted Value

At the Maturity Date, there will be no unrealized gain or loss on the Trust investments. In the interim, the unrealized gain or loss reflects variations in the value of the Financial Contract as calculated from time to time. If the "accreted value" of the units is defined as their NAV restated to exclude any unrealized gain or loss on the Financial Contract and any difference in the amortization of prepaid expenses and the PSF Note, the accreted value is a good indication of the amount in the Trust assets at a given date which would eventually be contributed towards the redemption of the units, assuming no credit event between the calculation date and the Maturity. Another way to look at the accreted value is to view it as the net asset of the Trust valued at cost less impairments.

Accreted Value:

	December 31, 2006	December 31, 2005 (10 1/3 months)	March 11, 2005 (at inception)
Weighted average number of units outstanding	14,124,646	14,950,000	14,950,000
Accreted value at beginning	\$9.52	\$9.35	\$10.00
Decrease (decrease) from operations:			
Total revenues	\$8.51	\$5.30	-
Total expenses	(\$7.61)	(\$4.47)	-
Realized gains (losses) for the period	-	-	-
Issue expense	-	-	(\$0.65)
Plus: Amortization of prepaid PSF expenses	\$0.11	\$0.08	-
Minus: Reduction in the outstanding amount of the PSF Note	(\$0.09)	(\$0.06)	-
Distributions	(\$0.82)	(\$0.66)	-
Accreted Value at end	\$9.66	\$9.52	\$9.35
Reconciliation of the Accreted Value and the Net Asset Value			
Accreted value at end of period	\$9.66	\$9.52	\$9.35
Unrealised gains and losses since inception	(\$0.89)	-	-
Amount of prepaid expense in excess of the PSF Note	(\$0.04)	(\$0.02)	-
Net Asset Value, end of period	\$8.73	\$9.50	\$9.35

The \$9.66 accreted value as at December 31, 2006 reflects the recovery of \$0.31 by the Trust or about 48% of the \$0.65 issue cost incurred in connection with the initial public offering.

8. Past Performance

The following bar chart and table indicate the performance of the units by showing both annual returns and return for the period and annualized compound returns from inception assuming all the distributions made by Global DIGIT II in the periods shown were reinvested at the NAV. Past performance is not necessarily indicative of future performance.

Returns

The following bar chart shows Global DIGIT II's annual performance for the year shown and performance for the year 2006. This bar chart shows, in percentage terms, how much an investment made on the first day of the financial year would have grown or decrease by the last day of the financial year or period.

The Trust objective is to provide a return on investment of 8.244% per annum to unitholders up to on or about March 9, 2010 and thereafter a fixed rate stream of monthly distribution reset every financial calendar year, intended to equal the five-year Government of Canada bond rate plus 4% to 4.5%.

Annual Compound Returns

	Past year	Since Inception ⁽¹⁾
Based on NAV ⁽²⁾	(1.6%)	4.0%
Based on unit price ⁽³⁾	1.2%	(1.3%)

(1) Annualized for the period of March 11, 2005 (inception date) to December 31, 2006.

(2) Calculated from initial net asset value of \$9.35 and December 31, 2006 net asset value of \$8.73 assuming all distributions reinvested.

(3) Calculated from issue price of \$10.00 and December 31, 2006 market price of \$8.47 assuming all distributions reinvested.

9. Summary of the Investment Portfolio

- 1) Swap agreements A, B, C, D for a total of \$2,130,725,000;
- 2) Bayerische Landersbank rated AAA Floating Rate Note for a total of \$2,000,000,000;
- 3) National Bank of Canada rated A Term Deposit Note for a total of \$110,913,540;
- 4) An interest-bearing receivable of \$22,215,069 under the swap agreements A, B and C.

Underlying Exposures

See Schedule B for a detailed description of the underlying Credit Exposures.

SCHEDULE A RISKS AND UNCERTAINTIES

The Trust is subject to various risks and uncertainties. The Trust's investment objectives could thus be adversely affected by each of the factors described below. Those are not the only ones faced by the Trust. Additional risks and uncertainties currently unknown to management of the Trustee or deemed rather unimportant could potentially have an impact on its business.

Credit Risk

As a result of entering into the Financial Contract, the Trust is exposed to a levered credit exposure. Any Credit Event triggered by a Reference Obligation would result in a net loss for the Trust.

Creditworthiness of Silverstone and Deutsche Bank

Because the capacity of the Trust to redeem Units on the Maturity Date or to make distributions during the duration of the transaction depends on the receipt of a payment by Silverstone from Deutsche Bank at that date under the collateralized credit default swap agreements between Silverstone and Deutsche Bank and the repayment of an equivalent amount by Silverstone to the Trust under the Financial Contract, whether Unitholders will receive the targeted distribution and subscription price repayment is dependent upon the financial health, rating and creditworthiness of Deutsche Bank and Silverstone.

Creditworthiness of the Reference Obligations

The credit ratings of the Credit Exposures are those of S&P and/or Dominion Bond Rating Service Limited ("DBRS"), as applicable, and the credit ratings of the Reference Obligations are those of Moody's Investors Service, Inc. ("Moody's"), S&P, Fitch, Inc. ("Fitch") or DBRS, which have investigated all or some of such Reference Obligations. Credit ratings on such Reference Obligations are not a recommendation to buy, sell or hold investments, and may be subject to revision or withdrawal at any time by the relevant rating agencies. While the Credit Exposures are rated by S&P and/or DBRS, as applicable, the Units are not rated by any rating agencies. Although some information with respect to Reference Obligations may be available from publicly available sources, no representation is made with respect thereto by the Trust, the Trustee, Silverstone or any of their respective affiliates as to the accuracy or completeness of any such information.

Fluctuations in the NAV of the Units

The NAV of the Units will vary according to a number of factors that are not within the control of the Trust, Silverstone or Deutsche Bank including general market conditions, the performance and creditworthiness of the Reference Obligations, the Credit Exposures and the Permitted Investments. The NAV of the Units will also be influenced by a reduction in the monthly distributions on the Units, the cost of the senior debt issued by Silverstone and the ability of Silverstone to issue such debt, any downgrades of Reference Obligations in the Portfolio and the Aggregate Loss Determination Amount.

No Recourse to the Reference Obligations, Portfolio and Credit Exposures

The intention to make Monthly Payments is an intention of the Trust and the obligation to redeem the Units on the Maturity Date is an obligation of the Trust. Unitholders will not have, and the Units will not represent, any proprietary interest whatsoever in the Portfolio, the Reference Obligations or the Credit Exposures. Accordingly, Unitholders will have no recourse whatsoever, directly or indirectly, to the Portfolio,

the Reference Obligations or the Credit Exposures to satisfy amounts owing to them by the Trust. The Trust itself will not have any proprietary interest in, or charge on, any of Silverstone's assets under the terms of the Financial Contract.

None of the Trustee, Silverstone, Deutsche Bank or any of their respective affiliates, any Unitholders or any of their respective owners, beneficiaries, agents, officers, directors, employees, affiliates, successors or assigns will be personally liable for the obligations of the Trust in respect of the Units.

Disqualification as a Mutual Fund Trust

If the Trust does not qualify as a mutual fund trust within the meaning of the *Income Tax Act* (Canada) (the "Tax Act"), the amount received by the Unitholders from the distributions made by the Trust could be treated differently under the Tax Act and, accordingly, be considered taxable income. In addition, there could be other adverse material tax effect on the Unitholders.

Fluctuations in Monthly Distributions

There can be no assurance that the Trust will be able to maintain the monthly distributions to the Unitholders should Credit Events occur. The eventual occurrence of Credit Events will decrease the monthly distributions to be paid to Unitholders.

Forward-Looking Statements

This annual information form contains "forward-looking" statements within the meaning of securities legislation which are based on certain estimations and expectations. Statements that are not historical facts, including statements about assumptions and expectations from management of the Trustee, are forward-looking statements. Such statements are subject to potential risks and uncertainties, and actual results could therefore differ materially. The Trustee' management undertakes no obligation to publicly update any forward-looking statements to account for any new information, future events or other factors.
